PARIS OLYMPIC GAMES

A comparative Study

COMPARATIVE STATISTICS OF THE PARIS OLYMPIC GAMES WITH THE TOKYO OLYMPIC GAMES AND A YEAR OF IJF WORLD TOUR COMPETITIONS

(FROM WORLD CHAMPIONSHIP 2023 TO WORLD CHAMPIONSHIP 2024)

This study is the result of the personal work of the JudoData Team and the data contained in it are not official data of the International Judo Federation. However, we believe that through its specifically technical approach, this study can provide important food for thought.

The JudoData Team: Emidio Centracchio, Riccardo Gozzer, Enrico Gatto, Andrea Spicuglia, Massimiliano Orlandi.

Instructions for reading the data

The contents of the statistical analysis carried out are arranged in three columns, respectively relating to: The Paris Olympic Games, The Tokyo Olympic Games and a year of competitions of the IJF World Tour starting from the 2023 World Championship up to that of 2024.

Each Chapter is divided into sections and each section is made up of tables containing the data and enriched with graphs that highlight the results of the numerical calculations.

The semi-columns VS. highlight, where possible, the differences in the values compared to those of the Paris Olympic Games.

We are sure that this document is particularly useful for Analysts, Coaches and Judo enthusiasts who wish to delve deeper into the statistical dynamics of high-level judo.

Chapter 1 - Comparative Statistics of the Paris Olympic Games with the Men's Division and the Women's Division

Introduction

In this first chapter, the general data of the Paris Olympic Games will be compared with the specific data relating to the Men's and Women's weight categories.

The IJF, through its qualification system, has masterfully managed to balance the participation of male and female Athletes. It will therefore be interesting to understand how gender-related fighting styles have influenced the overall competition values.

As is our style, we limit ourselves to displaying the data in a way that is as simple to consult as possible, leaving readers and their expertise free to draw their own conclusions.

Paris Olympic Games Penalties

Chapter 2 - Comparative Statistics between Paris Olympic Games, Tokyo Olympic Games and One Year of IJF World Tour.

Introduction

In the second chapter we will analyze the data recorded at the Paris and Tokyo Olympic Games together with the overall data of 21 competitions of the IJF World Tour.

The study gives us the opportunity to compare the two Olympic editions, which have a more uniform level towards the top with the average of the data collected in more heterogeneous competitions.

The differences in the regulations applied, however, still generate differences that provide interesting food for thought.

Chapter 3 - Comparative Statistics by Weight Category.

Introduction

In this third and more substantial chapter we go into the specifics of the Weight Categories and their statistical numbers.

Thanks to this detailed study we can thoroughly analyze the performance model of each weight category and we can more easily identify the analogies and differences between them.

The possibility of comparing the data of the Paris Olympic Games with other competitions will certainly provide interesting food for thought.

As always, we leave the interpretations to each of you who with your expertise will draw your own conclusions.
